

**CEPT/ERC/RECOMMENDATION 21-14 E (Brussels 1994)****SATELLITE PAGING SERVICE TERMINAL EQUIPMENT IN EUROPE****Relating to interim type approval, marking and free circulation and use of  
Satellite Paging terminals in CEPT member countries.**

*Text of the Recommendation adopted by the "European Radiocommunications Committee" (ERC):*

"The European Conference of Postal and Telecommunications Administrations (CEPT):

*considering*

- i) that satellite paging services will become operational during 1994 and that many potential users will have a need to travel to, from or through Europe with satellite paging terminals;
- ii) that the Satellite Paging terminals are Receive-only devices and will receive signals in the frequencies allocated to the Mobile Satellite Service;
- iii) that it will be desirable for CEPT member countries to have common regulations at their disposal, concerning the interim type approval, marking, free circulation and use of Satellite Paging terminals;
- iv) that Satellite Paging terminals will be required to meet the technical standard of the relevant satellite network operator;

*recommends*

1. that the type testing undertaken by the relevant Satellite network operator for the Satellite Paging terminals be accepted as a basis for interim type approval until any of the following are applicable:
  - a) A standard has been developed by ETSI for Satellite Paging terminals;
  - b) Mandatory compliance requirement in accordance with the Satellite Directive 93/97/EEC;
  - c) Mandatory compliance requirement with Directive 89/336/EEC (EMC Directive) modified by Directive 92/31/EEC;
2. that CEPT member Administrations shall not require an individual licence for the use of Satellite Paging terminals;
3. that CEPT member Administrations shall permit the free circulation and use of Satellite Paging terminals provided that the Satellite Paging terminal is type tested in accordance with *recommends 1* above and bears a mark in conformity with conditions set out in Annex 1 of this Recommendation."

**Left blank**

**ANNEX 1**

**CONDITIONS FOR MARKING OF SATELLITE PAGING TERMINALS COVERED BY  
THIS RECOMMENDATION**

A CEPT member Administration shall accept an easily identifiable and indelible mark, placed on the terminals, in the following form:

**CEPT/SATPAGE/. . . . .**

Where ". . . . ." is

Satellite Operator Name / Satellite Operator Type Testing Certificate Number
