

Recommendation T/R 21-01 (Rome 1967)

FREE CIRCULATION BETWEEN COUNTRIES OF SUBSCRIBERS  
TO THE EUROPEAN RADIO PAGING SERVICE

Recommendation proposed by the "Radiocommunications" Working Group T/WG 3 (R)

*Text of the Recommendation adopted by the "Telecommunications" Commission:*

"The European Conference of Postal and Telecommunications Administrations,

*considering*

- that in general the limits of the base networks of European radio paging services coincide with national frontiers, but that some overlap might be desirable,
- that it is essential to achieve free circulation from country to country of subscribers along [complete] with their receiver equipment which has been duly authorised in their country of origin,

*recommends*

- (a) that agreements should be made between adjacent countries for the judicious installation of base network transmitters,
- (b) that all necessary measures should be taken to permit the reciprocal recognition of reception rights."
