

Recommendation T/R 21-05 (Nice 1985)**FREE CIRCULATION AND UTILISATION OF EQUIPMENT
FOR THE GSM MOBILE RADIOTELEPHONE SYSTEM**

Recommendation proposed by the "Radiocommunications" Working Group T/WG 3 (R)

Text of the Recommendation adopted by the "Telecommunications" Commission:

"The European Conference of Postal and Telecommunications Administrations,

considering

- (a) that the GSM is studying a future trans-European public radiotelephone system,
- (b) that the frequency band to be used for such a system has been designated by Recommendation T/R 75-02,
- (c) that future users may operate within areas of public mobile radio system coverage as well across national frontiers,
- (d) that the equipment used with the GSM system will be required to meet the standards of technical performance laid down in the approved specifications,

recommends to CEPT Administrations participating in the GSM international public radiotelephone system

1. that they shall take measures to allow users who cross national frontiers to operate their equipment without the imposition of unnecessary administrative or legal formalities,
2. that they shall adopt procedures for the mutual acceptance of approved equipment when the system becomes operative."
