

**Recommendation T/R 21-07 (Lecce 1989 (CR))**

**BORDER CROSSING AND USE OF MOBILE TRANSMITTER-RECEIVERS  
IN CEPT MEMBER COUNTRIES**

Recommendation proposed by the "Radio Administration, Regulation and Frequency Management"  
Working Group T/WG 15 (RARF)

*Text of the Recommendation adopted by the "Telecommunications" Commission:*

"The European Conference of Postal and Telecommunications Administrations,

*considering*

- a) that the use of mobile transmitter-receivers is widespread and regulations vary from one country to another,
- b) that the transportation and use of mobile transmitter-receivers, which are often installed in vehicles, might cause problems when crossing borders,
- c) that it is a general aim of the CEPT member countries to ease border crossing and, if possible, the use of mobile transmitter-receivers, and that it is therefore desirable for Administrations to have common regulations,

*noting, however,*

that this Recommendation is without prejudice to national regulations administered by customs' authorities concerning the import and export of mobile transmitter-receivers,

*recommends*

that CEPT members take the necessary measures, described hereunder, to facilitate the border crossing and/or use of mobile transmitter-receivers by visitors to their country,

1. that, at the request of another Administration, the use of mobile transmitter-receivers should, as far as possible, be allowed in their countries or, if this is not possible, they should allow the transportation of mobile transmitter-receivers,
2. that Administrations should make such requests in the form given in Annex 2 and replies should be given in the form set out in Annex 3,
3. that, in order to simplify the procedure as much as possible, Administrations should respond to requests of this kind within a period of 2 months,
4. that, in order to avoid unnecessary administrative activity, Administrations initiating such requests should indicate if they are prepared to make arrangements for a register to be kept of all the agreements given by other Administrations concerning that particular kind of equipment, and for keeping other Administrations informed of any changes,
5. that Administrations, where they grant individual licences for mobile equipment, should issue to those intending to cross borders a document of the form indicated in Annex 1, which records the agreements made in accordance with paragraph 1 of this Recommendation and shows those countries by which authorisation has been given,
6. that Administrations should recognise any document containing the text indicated in Annex 1,

7. that Administrations, where they do not grant licences or where they grant general licences, may accept on the basis of reciprocal agreements, as an alternative to a document of the form indicated in Annex 1, an approval mark which indicates that it is in conformity with a CEPT Recommendation or an ETS standard (ETSI),
8. that Administrations, also, in cases where they themselves as a visited country require licences, but the home Administration of the user does not grant these, should adopt the principles of paragraph 7.”

**Annex 1**

Administration of Issue  
CEPT

**OFFICIAL CIRCULATION CARD  
FOR A MOBILE TRANSMITTER-RECEIVER**

based on CEPT Recommendation T/R 21-07 E

1. Name and address of the licence holder:

---

2. Description of equipment or service authorised:

---

3. Date of Issue:

Valid until:

---

4. The symbols in the list below indicate that the mobile transmitter-receiver:

- 0. may neither be carried nor used,
- 1. may be carried but not used,
- 2. may be carried and used,

in the country in question

A-	B-	C-	CH-	D-	DK-	E-	F-	FL-	GB-

**Annex 2**

**MODEL REQUEST FOR BORDER CROSSING  
AND USE OF MOBILE TRANSMITTER-RECEIVERS IN CEPT MEMBERS COUNTRIES**

In accordance with CEPT Recommendation T/R 21-07 E my Administration would like to know if your Administration could accept the use/transportation of radiocommunication equipment with the following details:

1. Initiating Administration
  2. Description of equipment or service
  3. Frequencies of operation
  4. Specification number (CEPT/ETSI) and other relevant technical details
  5. Expected introduction date
  6. Licence regime applied by the initiating Administration
  7. Licensing authority
  8. Contact for discussion of technical details
- \* In order to minimise Administrations activities my Administration will co-ordinate information about mutual licence recognition agreements and inform all participating Administrations about progress.
  - \* My Administration is not in a position to co-ordinate information about mutual licence recognition agreements or to inform all participating Administrations about progress.
  - \* Text to be selected by the Administration.

In accordance with paragraph 3 of the above-mentioned Recommendation you are kindly requested to give your

response to this request not later than \_\_\_\_\_ (date).

This request has been addressed to the following Administrations:

---

---

---

My Administration has already reached an agreement with a number of other Administrations, which are listed below together with the type of agreement, i.e.:

1. May be carried but not used
2. May be carried and used

---

---

**Annex 3**

**DECLARATION**

The Administration of \_\_\_\_\_ hereby declares that equipment and/or services of the following type

(description of equipment and/or service)

(0) may neither be carried nor used in  
(country) \_\_\_\_\_

(1) may be carried but not used in  
(country) \_\_\_\_\_

(2) may be carried and used in  
(country) \_\_\_\_\_

(any special restrictions)

The responsible authority and contact for enquiries concerning this equipment is:

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Telephone: \_\_\_\_\_

Telex: \_\_\_\_\_

Telefax: \_\_\_\_\_
